OBJECTIVE

I am a fast learning second year computer science with management student at King's College London who is very passionate about problem solving tasks and broadening my knowledge about the informatics sector. Currently seeking a placement in Software Development.

VOLUNTEER EXPERIENCE AND LEADERSHIP

Marketing Sub Committee | KCL India Society

2016-2017

- **Marketing Skills** – I learned how to advertise and persuade people to come to our events through, stalls, social media posts and posters.
- **GitHub Skills** – helped develop and debug the website and improved my GitHub skills while sharing code with multiple members

Head of Marketing and Finance | Cancare

2014-2016

- **Leadership** – organised meetings and achieved the goal of raising 14000 Euros through fundraising events and street marketing.
- **Entrepreneurship** – created a charity for a cancer research hospital in Jaipur, India

Secretary and Event Organiser | Best of Both

2014-2016

- **Organisation** - took notes of all the meetings and planned the important topics that had to be covered in the next meeting.
- **Innovation** - planned several different fundraising events, such as a sports week with tournaments, to reach our goals
- **Communication** - liaised with the school we built in Ghana, to identify areas for improvement and fundraising.

Other Volunteering and Leadership Experiences include working with UNICEF Antwerp, being an integral member of my school yearbook team and stage crew, as well as attending The Hague International Model United Nations as the representative of Azerbaijan.
