OBJECTIVE

I am a fast learning Software Developer, who is very passionate about problem solving tasks and broadening my knowledge about the informatics sector.

EDUCATION

BSc Computer Science with Management (2019)

King's College London

Grade | First Class Honours

- Developed a Wifi Indoor Navigation System with **Android Studio**
- Created a Mobile App for the NHS using **React-Native**

International Baccalaureate (2016)

Antwerp International School

Grade | 35 points with

Higher Level | Economics (6), Chemistry (6) and Maths (5)

Standard Level | Physics (6), English Literature (5) Spanish Ab (5)

Awards | Science Award and Perfect Attendance

EXPERIENCE

Digital Engineer | PA Consulting

2nd September 2019*

- Partner with expert teams to **deliver game-changing systems or devices**.
- Work closely with leading clients such as Alstom and the NHS to **understand their needs** and come up with **innovative solutions** using the latest technologies such as **Artificial Intelligence** and **Machine Learning**
- Learn to be **adaptable** and **flexible** to fit the clients work environment whilst maintaining an **Agile** method of delivery

Digital Delivery Intern | GVC Holdings

2nd July 2018 – 24th August 2018

- **Coordinated** with different departments of a **FTSE 100** company to create a website attracting 18-24 year olds.
- Designed and produced dashboards to **improve the efficiency and performance** of Technology teams
- Created Lambda functions on **Amazon Web Services** to combine data from different sources

Intern | Menzel Vision & Robotics

15th June 2017 – 21st July 2017

- Developed **Image Processing skills** (Halcon and Merlic)
- Used these to **test and analyse** images and check if there were any defects in mass production
- Worked in a **team** to solve complicated problems efficiently

VOLUNTEER EXPERIENCE AND LEADERSHIP

Coding Instructor | Code First Girls

2019 - *

- **Presentation Skills** – During these sessions I act as an instructor to a group of 30 young women teaching them the basics of web development and Python.
- **Importance of Diversity**– Teaching women from different backgrounds allowed me to see how diversity results in out of the box solutions to problems.

Head of Marketing and Finance | Cancare

2014-2016

- **Leadership** – organised meetings and achieved the goal of raising 14000 Euros through fundraising events and street marketing.
- **Entrepreneurship** – created a charity for a cancer research hospital in Jaipur, India

Secretary and Event Organiser | Best of Both

2014-2016

- **Organisation** - took notes of all the meetings and planned the important topics that had to be covered in the next meeting.
- **Innovation** - planned several different fundraising events, such as a sports week with tournaments, to reach our goals
- **Communication** - liaised with the school we built in Ghana, to identify areas for improvement and fundraising.

Other Volunteering and Leadership Experiences include working with UNICEF Antwerp, being an integral member of my school yearbook team and stage crew, as well as attending The Hague International Model United Nations as the representative of Azerbaijan.
